

ENVIRONMENT APP DATABASE DEPLOY

Create your Enclave Environment

Environments are used to manage Enclave permissions. Dedicated environments run on dedicated stacks. Each environment belongs to one stack, but a stack can have many environments.

Create an Environment

Handle Lowercase alphanumerics, periods, and dashes only

Region

 **US East - N. Virginia**
us-east-1

 **US West - Oregon**
us-west-1

 **Asia Pacific - Singapore**
ap-southeast-1

 **Asia Pacific - Sydney**
us-west-1

Environments on Enclave

Environments are mapped to Stacks. The Stack a given Environment is mapped to determines which underlying virtualized infrastructure will be used to deploy your apps on.

Here is everything there is to know about Environments on Enclave:
